This communication is in response to applicant's communication filed 10/27/2005.

Reasons For Allowance

Claims 1-28 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art fails to show an apparatus for inspecting contours formed of electrically conductive material using eddy currents comprising a probe movable along a path of travel with respect to the region to be inspected on a workpiece to a static testing position substantially coaxial with the longitudinal axis of the probe; at least two coils supported on the probe to be electrically excited while the probe is stationary at the static testing position with respect to the workpiece; and means for measuring the excitation voltage of each coil as eddy currents are induced in the conductive material by the coils supported on the probe while stationary with respect to the workpiece.

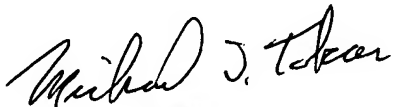

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
